DETAILED ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Kelly Kordzik on March 16, 2007.
3. The application 's claim has been amended as follows:

Claim 14, line 8, "said electret layer" has been amended as --said movable second electret layer--.

Reason For Allowance

4. Claims 1-23 are allowed.
5. Following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 12 and 14, which include (claim 1) a first electret layer having an electrical charge, the first electret layer embedded in a light guidance substrate and a moveable second electret layer embedded in a deformable dielectric layer; (claim 12) a voltage source to selectively apply a voltage between the first and second conductive layers, wherein frustration of

total internal reflection of light occurs by means of the second electret layer; (claim 14) a first electret layer having an electric charge, wherein the first conductive layer is positioned between the first electret layer and the moveable second electret layer, the movable second electret layer positioned between the first conductive layer and the second conductive layer.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuyen Q. Tra whose telephone number is 571-272-2343. The examiner can normally be reached on 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ricky L. Mack can be reached on 571-272-2333. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
